CLOSED: Share your feedback on our draft Speed Management Plan 2026-36 (Paekākāriki to Otaihanga) Results

Jul 28, 2026 - Sep 16, 2026

Project: A new Speed Management Plan for Kāpiti 2026-36

Form: CLOSED: Share your feedback on our draft Speed Management Plan 2026-36 (Paekākāriki to Otaihanga)

Tool Type: Form

Activity ID: 305

Exported: 2026-10-01 12:55:17

Filtering by 'Select a suburb where you'd like to give feedback':

All Of The Following Must Be True

* Select a suburb where you'd like to give feedback Contains 'Raumati'

Q14 Do you agree proposed change A for SC2 Te Rā Waldorf School?

Multi Choice

Yes, I agree

Q15 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q16 Do you agree proposed change B for SC2 Te Rā Waldorf School?

Multi Choice

Yes, I agree

Q17 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q18 Do you agree proposed change C for SC2 Te Rā Waldorf School?

Multi Choice

Yes, I agree

Q19 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q20 Do you agree proposed change D for SC2 Te Rā Waldorf School?

Multi Choice

Yes, I agree

Q21 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q22 Do you agree with this proposed change for SC3 Raumati Beach School?

Multi Choice

Yes, I agree

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

Yes, I agree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice

Yes, I agree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice

Yes, I agree

- Q29** Please explain why you disagree with this proposed change for SC5 Raumati South School.
- Long Text
- Q30** Do you agree with proposed change B for SC5 Raumati South School?
- Multi Choice Yes, I agree
- Q31** Please explain why you disagree with this proposed change for SC5 Raumati South School.
- Long Text
- Q32** Do you agree with proposed change A for RZ1 Raumati Village?
- Multi Choice Yes, I agree
- Q33** Please explain why you disagree with this proposed change for RZ1 Raumati Village.
- Long Text
- Q34** Do you agree with proposed change B for RZ1 Raumati Village?
- Multi Choice Yes, I agree
- Q35** Please explain why you disagree with this proposed change for RZ1 Raumati Village.
- Long Text
- Q36** Do you agree with this proposed change for RZ2 Takitimu Road?
- Multi Choice Yes, I agree
- Q37** Please explain why you disagree with this proposed change for RZ2 Takitimu Road.
- Long Text
- Q102** Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?
- Multi Choice Yes, I agree
- Q103** Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.
- Long Text
- Q104** Is there anything else you'd like us to consider for future Speed Management Plans?
- Long Text In principle I favour any improvements around schools but leave the decisions to the traffic engineers
- Q105** Are you providing feedback as an individual or on behalf of an organisation?
- Multi Choice As an individual
- Q106** Name of organisation
- Short Text
- Q107** Age Group
- Select Box 80-84
- Q108** Do you live in or own a property in Kāpiti
- Multi Choice Yes

Q109 **If yes, which suburb?**

Select Box Waikanae

Q110 **Where do you live?**

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

After living at [REDACTED] for 26 years I can give a fair thoughts on living in this village. Very few drivers stick to 30ks especially on Rosetta Rd .Only seen police there twice and never seen a camera van there. In a word its bloody dangerous for pulling in and out of drives, pedestrians and general public. Solution.
1- exstend 30ks Rosetta, Matatua, Alexander and Raumati .
2- Speeds cameras regularly in area.
3-Look at no parking yellow lines start of Rosetta Rd through to 290 Rosetta so cars can exit drives safely. Im probably wasting my time as my experience with feedbacks on these nothing happens until its to late after a fatality.
Please have a look at this whole area in the village.
Ray Fawcett

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Multi Choice

As an individual

Q106 Name of organisation

Short Text

Q107 Age Group

Select Box 65-69

Q108 Do you live in or own a property in Kāpiti

Multi Choice Yes

Q109 If yes, which suburb?

Long Text

Have you ever been in an ambulance as a patient in the back or for your family member going over these bumps. The severity of them are dangerous to the patient or any other passengers in the emergency vehicles. It causes them to slow down SO significantly having to cut their speed just for them to accelerate and cause more dangers than anything.

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

Yes, I agree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Please consider what it is like for emergency services when adding all of these extra speed bumps. Leave speed management up to the police.
I'm sure if it was your family member that needed that emergency service, mostly ambulances or fire engines faster, you would be wishing all of these speed bumps were not there slowing them down.
It causes a major disruption of the flow on the road for other drivers and pedestrians when emergency service vehicles have to slow down more than a standard car to manoeuvre over these speed bumps due to heavy vehicles, dangerous goods, heavy and/or fragile equipment (oxygen bottles) and patients/ passengers in these vehicles.
Think about this more carefully before going ahead with this please

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Long Text

SC4 - Kapiti College - Proposal B

As an extension, no parking zone directly to the left and right of the school entrance on this road. The current set-up makes it harder to leave school and narrows visibility. Would anything be done to manage congestion during busy hours?

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

I request that the 30km speed zone be extended in Raumati Beach Village from St Marks Church to 300 Rosetta Road. Also, I request that this area to be included in the school zone with school signs. This section of road is currently a 50km zone and has two blind corners with no pedestrian crossing or blind spot mirrors. As a resident living at [REDACTED], I help my 6 and 8 year old cross the street everyday and it's terrifying! I say a prayer every time we make it without a car speeding around the corner. And there are lots of families with small children that have to cross Rosetta at that same place.

The beach side of this section of Rosetta Road has no footpath and school students, as well as adults, literally take their life in their hands as they attempt to cross this section of road.

I would also request that in conjunction with a reduced speed zone in this area a footpath be installed from Garden Road to 323 Rosetta Road (beach side) to connect the residential properties to a pedestrian crossing, the Gardens, Village shops and schools. This would minimise foot traffic needing to cross this dangerous section of Rosetta Road.

Something must be done. It's unacceptable to maintain this unsafe crossing.

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

The area on Rosetta Road from about Allen Street through Matatua Road to just passed the Raumati Bowling Club, has become increasingly dangerous as drivers continually ignore the clear speed restriction signs. Their speed, coupled with the fact pedestrians are forced to walk on the road between the extension of Rosetta and Garden Road because of cars parked on the berm, can make walking a frightening experience.

In fact the entire Raumati Village area, which should be a pleasant, relaxed, safe zone for drivers, cyclists and pedestrians, is quite threatening.

This area features a college, a primary school, pre- school, bowling club, businesses including a chemist, doctor and dentist as well as a busy grocery shop. It is all contained within a 30 KPH restriction which is pretty much ineffective.

Questions have been asked, meetings held, emails written over several years so I am not hopeful that anything positive will eventuate from this latest approach for feedback.

But I will ask again for some measure(s) to be put in place so that traffic will be forced/ encouraged to slow down.

I have taken this opportunity to contribute, not because I expect any action to be taken, but because when there is a serious accident, I would never forgive myself if I hadn't spoken out again.

Multi Choice

No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Although I agree with the idea of speed humps in general, I am concerned with too many humps putting people off using the road. Given Hillcrest Rd has been developed as a connection road with a great round-about at the Raumati Rd intersection, the speed humps may push drivers to use Matai Rd and put more stress on the Matai Rd/Raumati Rd intersection, which conflicts with the planned traffic development. Too many speed humps will just cause motorists to get frustrated. As per Auckland backlash.

Q28	Do you agree with proposed change A for SC5 Raumati South School?
Multi Choice	Yes, I agree
Q29	Please explain why you disagree with this proposed change for SC5 Raumati South School.
Long Text	
Q30	Do you agree with proposed change B for SC5 Raumati South School?
Multi Choice	Yes, I agree

Q102	Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?
Multi Choice	Yes, I agree
Q103	Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.
Long Text	
Q104	Is there anything else you'd like us to consider for future Speed Management Plans?
Long Text	Other area our feedback has identified is Pukenamu Rd in the Te Horo area. This road is part 60km limit and part 80km limit. This is a high horse owning lifestyle block area with a new offroad connection between Derham Rd and Pukenamu Rd and then on to the beach area. So, high use of horses along this area would appreciate a more friendly speed limit of 60km/h.
Q105	Are you providing feedback as an individual or on behalf of an organisation?
Multi Choice	On behalf of an organisation
Q106	Name of organisation
Short Text	Cycleway, Walkway, Bridleway Advisory Group

Long Text

I reckon from Saint Marks Church to 300 Rosetta Road, its near a school zone with children and elderly in the area. Especially with the amount of traffic there can be before/after school pickup and drop off times with said children walking.

Long Text	
Q104	Is there anything else you'd like us to consider for future Speed Management Plans?
Long Text	There are no proposals for Poplar Avenue in Raumati South in this package. My group Kapiti Cycling Action is currently running a bike bus between Tennis Court Road and Raumati South School, which involves turning on and off Poplar Avenue with up to six children on weekdays. Currently Poplar Ave is under 40 km/h in this area, and only 30 km/h at the retail area to the west. We would like to see: 1. Extension of the current 30 km/h limit zone east to beyond the pedestrian crossing into QE Park opposite Matai Road. 2. Addition of at least one speed hump to slow traffic where the visibility is limited.
Q105	Are you providing feedback as an individual or on behalf of an organisation?
Multi Choice	On behalf of an organisation

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

I would like the existing 30k limit be extended in Raumati Beach village from St Marks church to 300 Rosetta Road. I also request that this area to be included in the school zone with School signs . This section is currently a 50 k zone and has two blind corners with no pedestrian crossing. The Beach side of this section of Rosetta Road has no footpath and pedestrians take their lives in their hands attempting to cross this section of the road. A footpath between Garden Road and 323 Rosetta Road (Beach side) would be wonderful. Presently there are often cars parked halfway on the bern opposite the Church and half on the road necessitating in pedestrians having to walk further into the road to access Garden Road as the only Zebra Crossing on Rosetta Road is past Garden Road going North

Long Text	
Q104	Is there anything else you'd like us to consider for future Speed Management Plans?
Long Text	The changes (which effectively slow cars, motor bikes & maybe ebikes) significantly improve safety, & potentially the confidence needed, to encourage travel by foot and by non-e bicycles. Children, the less-able and older residents will be more willing to walk, scoot or bike which contributes to population health and a relaxed pace in which to enjoy our coastal environment.

Comment on a number of proposals follow:

Road Corridors RC1 - Marine Parade Proposal C - agree

- This is a top priority for me. The volume of traffic on Marine Parade sometimes makes it difficult to cross and there are no pedestrian crossings or refuges at this end of Marine Parade.

Road Corridors RC2 - Ocean Road Proposal A - agree

Ocean Road has a lot of traffic sometimes as people use it to bypass the shopping area to get to Kāpiti Road. this is not a problem, but it is sometimes hard for pedestrians to cross.

Road Corridors RC6 - Arawhata Road Proposal A - agree

- This is a long busy road with nowhere currently for pedestrians to cross. Slip lane seems un-necessary, so could easily be converted.

Road Corridors RC8 - Rimu Road Proposal A - agree

- On Ihakara Street, somewhere near the road out of Coastlands by Briscoes as this is where lots of people walk and there are crossings/ refuges at either end of this stretch already. Somewhere on Rimu Road near the Medical Centre.

Road Corridors RC8 - Rimu Road Proposal B - agree

- Top priority. Very difficult to cross the road to get to and from bus-stops or the play area. Lots of children and older people in the area too.

Speed Limits SL13 - Paraparaumu-Raumati UTA extension proposal A - agree
- Seems sensible to support future development

School zones SC2 - Te Rā Waldorf School Proposal D - agree
- Good idea. Makes it easier for cyclists to get from the cycleway to QE2 Park. Currently quite narrow here.

Recreational areas RZ1 - Raumati Village Proposal A - agree
- Not sure if this is the best location - maybe closer to the intersection? Cars sometimes come up this intersection quite fast from Alexander Rd direction and from the direction of Rosetta Road.

Had to tick this option to be able to write feedback! I do agree with the speed bump, but additionally, you need to yellow line the south sides of Hillcrest, before the exit from the high school. It is impossible for cars exiting to see whats coming, making right turns dangerous at best. Its bonkers how many kids are driving to school now, Hillcrest has gone in the past 3 years from few cars on the road, to bumper to bumper, both sides of Hillcrest and on the grass verge on the exit road, beside the student car park. Visibility is all gone. throw in buses to the mix and honestly you're just feeling your way. and of course having 2 sides of the road full of cars makes it too narrow for 2 cars to pass each other simultaneously. So no, the speed humps are not enough!!

Q20 Do you agree proposed change D for SC2 Te Rā Waldorf School?

Multi Choice

Q21 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q22 Do you agree with this proposed change for SC3 Raumati Beach School?

Multi Choice

Yes, I agree

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

Yes, I agree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Traffic is already slowed to very safe limits during school pickups and drop off due to significant daily congestion at the hillcrest roundabout; Additional works to slow traffic are redundant and would only have effect outside of school hours which defeats the purpose

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice

Q29 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text

Q30 Do you agree with proposed change B for SC5 Raumati South School?

Multi Choice

Q31 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text

Q32 Do you agree with proposed change A for RZ1 Raumati Village?

Multi Choice

No, I disagree

Q33 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text

Having lived here some time, I have never found Alexandra road to be an issue with speed entering the Raumati Village area - the existing give way forces all traffic to travel at a safe speed

Q34 Do you agree with proposed change B for RZ1 Raumati Village?

Multi Choice

No, I disagree

Q35 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text

The electronic sign reminding drivers to slow to 30 when entering the area already achieves the objective without the need to construct speed humps

Q36 Do you agree with this proposed change for RZ2 Takitimu Road?

Multi Choice

Q37 Please explain why you disagree with this proposed change for RZ2 Takitimu Road.

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

There needs to be a pedestrian zebra crossing at the poplar ave end of tennis court road, due to visibility issues when crossing.
Also speed reduction measures for tennis court road around the park, hall, and kindergarten.
Painted footpaths for the shared with cyclists areas, so cyclist know which side to bike along, reducing the risk to small children and dogs from fast boomers on their e-bikes.

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Multi Choice

Multi Choice

Yes, I agree

Q21 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

Q22 Do you agree with this proposed change for SC3 Raumati Beach School?

Multi Choice

No, I disagree

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

With the installation of the plastic sticks defining the traffic flow area and the provision of the school crossing patrol during school periods I have observed no safety issues or near misses. The expenditure to do this upgrade is unnecessary and a waste of funds. Funds can be spent elsewhere and especially on beach amenities etc.

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Car parks are in short supply now. Removing additional parks will just exacerbate the illegal parking of vehicles that occurs presently during entry and exit school times. Traffic is already at a crawl in this area and so the expenditure is unnecessary and more reckless spending by KCDC.

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Unnecessary and as stated previously.

Q28	Do you agree with proposed change A for SC5 Raumati South School?
Multi Choice	Yes, I agree
Q29	Please explain why you disagree with this proposed change for SC5 Raumati South School.
Long Text	
Q30	Do you agree with proposed change B for SC5 Raumati South School?
Multi Choice	Yes, I agree
Q31	Please explain why you disagree with this proposed change for SC5 Raumati South School.
Long Text	
Q32	Do you agree with proposed change A for RZ1 Raumati Village?
Multi Choice	No, I disagree
Q33	Please explain why you disagree with this proposed change for RZ1 Raumati Village.
Long Text	Unnecessary and wasteful expenditure when there are better uses for the dollars
Q34	Do you agree with proposed change B for RZ1 Raumati Village?
Multi Choice	No, I disagree
Q35	Please explain why you disagree with this proposed change for RZ1 Raumati Village.
Long Text	Again unnecessary expenditure. Have seen no evidence of the needs to slow vehicle traffic. At holiday times traffic is at a standstill in these locations
Q36	Do you agree with this proposed change for RZ2 Takitimu Road?
Multi Choice	No, I disagree
Q37	Please explain why you disagree with this proposed change for RZ2 Takitimu Road.
Long Text	Unnecessary and a waste of ratepayer funds. The road is so short and a dead end that traffic is at a crawl now.
Q102	Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?
Multi Choice	Yes, I agree
Q103	Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Because of the design of the raised crossing used at Raumati South school, it is far too aggressive for motorists, it can't be used at the 20kmh posted speed. If a raised crossing is required the design requires massive improvement, be sure to redo the debacle outside Raumati South school while you are at it.

Q104	Is there anything else you'd like us to consider for future Speed Management Plans?
Long Text	Would like to see a speed hump on Matai road just prior to approaching intersection of Raumati Road. There is a Stop sign at this intersection but NO ONE STOPS. Motorists sail through like it's a give way. I live 2 houses from this intersection and have had many near misses while reversing into my driveway with people turning left from Matai into Raumati road because they're looking right for traffic coming from around the Raumati bend and because they don't stop to look both ways, they've nearly hit me while I'm entering my driveway. I'd also like to see a speed monitoring sign between the Matai road/ Raumati road intersection and Hillcrest road roundabout. Motorists are increasing their speed along here, and heavy trucks too, some well exceeding the posted 50kms. Thank you

Multi Choice

No, I disagree

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

I think the recently install barriers have helped to calm traffic whilst the school crossing is in operation. Generally motorists should be either slowing down or only beginning to accelerate after leaving the village slower speed zone, so should already be travelling at safer speeds for response times. The crossing only operates as a school crossing at the expected days/times for school. A lot of traffic uses that main route in and out of Raumati at times other than that (weekends/evenings/earlier in the morning/over all holiday breaks) I'm not sure the cost/benefit analysis would stack up for this. Especially if there are other, more important areas in the district where road safety is a concern. For example the 2026 fatality in Waikanae where a pedestrian was hit.

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

There is already a considerable amount of questionable parking at times of school drop off and pick up, for both college and primary. I fear that removing those car parks will only increase that type of parking, which can impede visibility both for crossing the road and safely manoeuvring in and out of carparks also (particularly at Te Raukura ki Kapiti). There is a crossing very close by which should be where these students are crossing, and i think this will only encourage them to continue crossing where they shouldn't be.

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text I just don't think the rationale for suggesting this change is particularly clear - is there a sizeable issue with speed on hillcrest that has put students or others in danger? I could see some rationale for doing it south of the school driveway, so vehicles are slowed in anticipation of more traffic and pedestrian movement. But I don't support them between the school driveway/student car park and the end of Hillcrest roundabout into Raumati Road.

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice

Q29 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text

Q30 Do you agree with proposed change B for SC5 Raumati South School?

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text It would be great to see the difference between proposals that are considered essential improvements for safety reasons (and who is anticipated to be made safer by the improvements) and those that are nice to have, would be great if we lived in a generous fiscal environment and times were a little more economically rosy than they currently are. Some sort of ranking/triage system would be helpful. Though I do acknowledge that could mean that the most important improvements are clustered in some areas of the district where there are more safety concerns or perhaps there has been historic under investment.

Long Text

I request that the 30km speed zone be extended in Raumati Beach Village from St Marks Church to 300 Rosetta Road. Also, I request that this area to be included in the school zone with school signs. This section of road is currently a 50km zone and has two blind corners with no pedestrian crossing. The beach side of this section of Rosetta Road has no footpath and school students, as well as adults, literally take their life in their hands as they attempt to cross this section of road.

I would also request that in conjunction with a reduced speed zone in this area a footpath be installed from Garden Road to 323 Rosetta Road (beach side) to connect the residential properties to a pedestrian crossing, the Gardens, Village shops and schools. This would minimise foot traffic needing to cross this dangerous section of Rosetta Road.

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

Not a priority. Traffic is already very slow at drop off and pick up times (30km/h plus school patrols). If there are any near misses, it is more likely that people just walk out without looking and seem to think the pedestrian crossing will protect them regardless of where the cars are. Suggest education about safely using crossings would be better.

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice

No, I disagree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text

Not necessary. Already very visible as there is a big space either side of the crossing already. Likely to contribute to more congestion given the number of parents already driving their children to school.

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text
- Q104 Is there anything else you'd like us to consider for future Speed Management Plans?**
Long Text Drivers in Kāpiti are generally pretty considerate and speed isn't a big problem on the whole. Bigger issues are some areas of quite high volumes but nowhere for pedestrians to cross. Refuges in these areas are a good option, especially Marine Parade and Rimu Road.
Speedy motorbikes on the cycleway/ walkway round the airport is a major ongoing problem. I've raised this with Council several times but nothing seems to have been done.
A pedestrian refuge somewhere near the Raumati Bowling Club so people can safely cross to and from the beach without having to turn right down to the shops. This is more important than a speed hump on Alexander Road.

Long Text

Hi, drivers approaching Raumati Village from the southern end frequently only reduce speed after passing Garden Road. Many families with children cross at this end of Rosetta Road, especially during summer, as do people walking their dogs. It is a difficult crossing at times due to the speed of approaching vehicles. . Frequently drivers exiting the 30km/h area have already sped up as well. There is also no footpath on the one side at this area. Crossing further north is therefore not an option. A speed bump similar to the one at Matatua and Alexander Road could be considered.

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

The stretch of Rosetta Road between St Marks Church and 300 Rosetta Road is very unsafe. There are no safe crossing points for residents, the traffic is moving too fast (50kph +), there are 2 blind corners, and there is no footpath on the west side of Rosetta Road so it's not possible for residents to walk to a safer crossing area.

The reality is that when you cross the street, you can check to see if it's safe to cross both ways, but if you start crossing and a car comes around a blind corner then it will hit you if you don't finish crossing the street in time.

Something needs to be done about this stretch of road. Reduced speed to 40 kph, a footpath to a safer crossing area, or a pedestrian refuge island.

Every local resident I've spoken to has an issue with this street being unsafe.

Can you please prioritise improving this part of Rosetta Road?

Slowing down every car as they approach the speed humps will cause more noise than the current occasional speeding car. Also, the buses that deliver and pick up students to and from the technology centre will be affected by these humps multiple times a day.

I recommend investing the money that we be spent on this project into a mobile speed camera on a trailer that can be moved around as necessary. This would give a better outcome and bring in money for the council.

Long Text

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice

No, I disagree

Q29 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text I support the proposed improvements around Menin Road and Hillcrest Road. However, I would like Council to extend the proposed improvements to specifically provide for pedestrians needing to cross Menin Road.

This is particularly important because Menin Road forms part of the walking route to and from Raumati South School. Children and families approaching from the Raumati Beach side can need to cross Menin Road around the Hillcrest Road intersection to continue towards the school. At present there is no clear or protected crossing point, and the speed of approaching vehicles can make crossing difficult, particularly for children. While the proposed measures will help provide more space for pedestrians waiting to cross the road, there remains a need for pedestrians to safely cross Menin Road.

Having walked this route consistently with kids for nearly 5 years, it's a difficult road for kids to cross. Cars travel fast and don't slow down to let kids cross. Cars are coming from 4 directions making it harder for kids and families to evaluate when it's safe to cross. The walking route through Matthews Park and down Hillcrest set this location up as the natural crossing point, yet it still has many safety concerns.

I request that Council consider incorporating a safe pedestrian crossing facility into the works proposed in Concept Plan 5. The exact treatment could be determined by Council's transport engineers, but could include a formal crossing, raised crossing or other appropriate crossing treatment. At a minimum, signage or road markings warning drivers that children and other pedestrians cross here should be considered.

I would also like Council to look beyond the immediate works shown in Concept Plan 5 and consider the full pedestrian journey to Raumati South School. In particular, the intersection of Hillcrest Road and Matai Road should be assessed from the perspective of children and families walking to school. If pedestrians are encouraged to use Hillcrest Road as a safer route, they also need a safe way to cross at the Matai Road end. Council should consider whether a further pedestrian crossing or other crossing treatment is required there.

The objective should be a continuous safe walking route to school, rather than individual traffic-calming measures that leave unsafe points along the journey.

Q30 Do you agree with proposed change B for SC5 Raumati South School?

Multi Choice Yes, I agree

Q31 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text

Long Text

Q36 Do you agree with this proposed change for RZ2 Takitimu Road?

Multi Choice No, I disagree

Q37 Please explain why you disagree with this proposed change for RZ2 Takitimu Road.

Long Text I support the Council undertaking safety improvements at the Takitimu Road/Rosetta Road intersection. The proposed speed hump on Takitimu Road will help slow vehicles entering and leaving Takitimu, but I am concerned that the concept plan does not address the main pedestrian safety issues at this location.

The first issue is the lack of a safe place for pedestrians to wait.

Takitimu Road is a significant beach access point for the Raumati Beach community, including people approaching from Margaret Road and Matthews Park. It is a natural crossing point for pedestrians accessing the beach, yet there is no properly formed or clearly identified pedestrian waiting area on the beach side of Rosetta Road.

Pedestrians crossing Rosetta Road towards the beach effectively arrive at the Takitimu Road intersection without a safe paved area to stand or a clearly defined route towards the beach. Similarly, pedestrians leaving the beach do not have a proper place to wait before crossing Rosetta Road.

I would like Council to provide formed, paved pedestrian waiting areas on both sides of Takitimu Road at the Rosetta Road intersection, with a clear pedestrian connection towards the beach access. The location should also be clearly identifiable to motorists as an area where pedestrians regularly cross and walk to the beach (i.e. a shared access path, not just for vehicles).

This is particularly important because vehicles turning from Rosetta Road into Takitimu Road cross the path pedestrians naturally take towards the beach. We live at this location and have seen pedestrians who have just crossed Rosetta Road come into conflict with vehicles fast turning into Takitimu on numerous occasions. If these vehicles had a better appreciation of the shared use nature of the Road they may slow down sooner and proceed with more caution.

The second issue is visibility.

The current layout of the land and vegetation on the beach side of Rosetta Road significantly restricts sightlines. The mound/bank at the intersection, combined with vegetation and weeds within the Council road corridor, can completely obscure pedestrians waiting at this location from vehicles approaching.

This is particularly concerning in relation to vehicles approaching along Rosetta Road from the south. A driver cannot see a pedestrian waiting to cross until they are very close to the intersection. The same obstruction affects the pedestrian's ability to see approaching traffic.

This needs to be addressed as part of the proposed safety works. Council should assess whether the mound/bank can be altered to improve sightlines and ensure that vegetation within the road corridor is regularly maintained so that it does not obstruct visibility.

The third issue is vehicle speed on Rosetta Road itself.

While the proposed speed hump on Takitimu Road is welcome, it primarily slows vehicles once they are turning into or travelling along Takitimu. Pedestrians crossing at this location are also exposed to vehicles travelling along Rosetta Road.

This section of Rosetta Road is one where vehicles can travel relatively quickly, assisted by the dip in the road. Despite Takitimu being a well-used beach access and natural pedestrian crossing point, there is very little to alert drivers on Rosetta Road that pedestrians are likely to be crossing here and they should therefore be ready to slow down (the is especially the case given the limited visibility issue here).

I therefore ask Council to consider additional traffic-calming or warning measures on Rosetta Road in advance of the Takitimu intersection, rather than relying solely on the proposed treatment within Takitimu Road. Any pedestrian warning signage associated with this location should be positioned where it is visible to motorists travelling along Rosetta Road before they reach the crossing area.

In summary, I support the proposed speed hump in Concept Plan 2 but ask Council to expand the design to include:

- formed and paved pedestrian waiting areas on the beach side of Rosetta Road, ideally on both sides of Takitimu Road (but at least one);
- a clearly defined pedestrian route between Rosetta Road and the beach access;
- clear identification of this location as a pedestrian crossing area so that motorists expect people to be crossing;
- removal or modification of physical and vegetation obstructions that restrict sightlines (potentially cutting a retaining wall into the bank to improve sightlines);
- ongoing maintenance of vegetation within the Council road corridor to preserve those sightlines; and
- additional warning or traffic-calming measures on Rosetta Road before vehicles reach the Takitimu Road intersection.

These are relatively straightforward improvements that would complement the proposed speed hump and address the way pedestrians actually use this location. The objective should be to ensure that pedestrians have somewhere safe to wait, that they can see and be seen by approaching motorists, and that motorists travelling along Rosetta Road are given sufficient warning that they are approaching a frequently used pedestrian and beach access point.

Q102 Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Please consider full footpaths down both sides of Rosetta Road. Footpaths are currently patchy, requiring pedestrians to continuously cross Rosetta Road. Many of the carparks along the road are underutilised and not required. Carpark space should be turned into more footpath space, which will limit the points at which pedestrians need to cross Rosetta Road. Rosetta Road is a beach access road so needs improvements to cater more for pedestrians and cyclists. We appreciate that cars are directed down Rosetta Road to avoid the school on Matai Road, but over time the road will get more congested with cars using this as a road corridor as opposed to a beach access road, which will significantly affect the amenity of Raumati beach.

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Speed humps will very much assist in slowing traffic now. As a resident of Raumati Village, I daily see and hear cars travelling so much faster that the 30km/h speed limit when travelling along Matatua and Alexander Roads. Raumati Road traffic is slow by sheer necessity of school & shop foot traffic crossings, but once they leave that T intersection opposite Marine Gardens the acceleration is excessive.

Long Text

School Zones Consistency. As a former teacher and long-time resident in the area, I note that the draft plan for each school zone appears to be different. Some warrant lights, some traffic refuges and some just humped pedestrian crossings. Yet the issues remain the same, large numbers of inexperienced and easily distracted road users crossing at busy times of the day, often with only the guidance of road crossing patrols, who are children themselves. The duty teachers are also prone to distraction, parents or children requiring their attention or footpath activities rather than what is going on at the road crossing. I suggest, standardised reduced speed zones, lights at each crossing, raised crossings and potentially pavement bars that channel pedestrians to formal crossing points. Raumati Beach school is a prime example of poor road and crossing design. Highlighted by the fact that the speed zone continues to be 50 KPH, while around the corner opposite the bowling green it is 30 KPH with flashing lights warning of the need to reduce speeds. It is time we started to value our young.

Multi Choice

No, I disagree

Q33 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text

Speed humps are a crude way to enforce a speed limit of about 10 kph over a distance of 1 metre or so, on a road which has already been assigned a safe speed limit. This can cause an erratic traffic flow and adds a major distraction to what is otherwise safe driving. Any real or imagined improvement in road safety is more than undone by these disadvantages.

Q34 Do you agree with proposed change B for RZ1 Raumati Village?

Multi Choice

No, I disagree

Q35 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text

Speed humps are a crude way to enforce a speed limit of about 10 kph over a distance of 1 metre or so, on a road which has already been assigned a safe speed limit. Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Para 3: "By packaging interventions into larger programmes of work, we can improve efficiency and achieve better value for money compared to delivering projects individually, while contributing to broader road safety outcomes and network performance." I fully support KCDC's alignment with this principle of work.

page 9: The role of the Safety System. I support KCDC's adoption of these principles, but please note the following: table 3, line 2, col 2. "...Surfaces will be improved, and roadside hazards removed...". Installing speed humps degrades rather than improves the road surface. Speed humps are a crude way to enforce a speed limit of about 10 kph over a distance of 1 metre or so, on a road which has already been assigned a safe speed limit. This can cause an erratic traffic flow and adds a major distraction to what is otherwise safe driving. Any real or imagined improvement in road safety is more than undone by these disadvantages.

page 12: Kāpiti Coast District Council Speed Management Plan, Pathways Network Plan: bullet point 1 "connecting gaps in the walking network to provide safe access to key destinations". The following two locations should be considered as fitting in with this plan, they are both well used by dog walkers and schoolkids:

1. the end of Nathan Avenue east of Falla Street to Golf Road has a blind bend with no footpath.
2. Golf Road at the Nathan Avenue junction also has a blind double bend, and must be crossed to reach the footpath on the East (golf course) side.

Road Corridors

page 30: Concept Plan 1 – Marine Parade – Proposed A and D

Both propose replacing raised safety platforms with raised zebra crossings.

I fully support these proposals. The safety of all road users is improved where priorities are clearly shown; raised safety platforms rely too much on pedestrians and drivers somehow communicating with each other in order to establish who is giving way to whom.

page 32: Concept Plan 2 – Ocean Road

“proposed pedestrian splitter island on Ocean Road approach to Marine Parade to reduce the width of road that pedestrians must cross and the speeds at which motorists enter/exit Ocean Road.”

I fully support this proposal.

page 33: Concept Plan 3 – Mazengarb Road - Proposed A – “suggested location of pedestrian refuge...”

I support this proposal, but would like to add this point for consideration:

At certain times, especially during the morning school rush, a lot of traffic is turning right out of Walton Road onto Mazengarb Road. It is currently possible to use the flush median to merge with the traffic traveling SW on Mazengarb towards the college, but this may not be a safe option with a pedestrian refuge so close. Consequently, it may be an idea to remove the median markings from that section of road, or move the pedestrian refuge 100m or so SW, to somewhere between the bus stops and the cell tower.

page 33: proposed B - Add lighting to the existing pedestrian refuge

I fully support this proposal.

page 40: Concept Plan 6 – Arawhata Road and Tutaneikai Street - proposed kerb widening and pedestrian refuges

I support this proposal, but would like to add this point for consideration:

When turning right out of Tutaneikai Street I use the flush median on Arawhata Road to merge with the traffic traveling NE. This may not be safe to do with a pedestrian refuge in place, so it may be an idea to remove the median markings from that section of road.

On a grander scale, this junction might warrant being replaced with a mini roundabout.

School Zones

page 59: Concept Plan 3 – Raumati Beach School - Proposed A – “Reconstruct the existing pedestrian crossing on a raised safety platform...”

I fully support this proposal. A further improvement may be to extend the 30k zone East at least as far as this crossing, or as far as the access to Te Raukura ki Kapiti.

page 60: Concept Plan 4 – Kāpiti College - Proposed A – “Remove two car parks and build a kerb extension...”

I fully support this proposal.

page 64: Concept Plan 6 – Our Lady of Kāpiti School - Proposed intersection improvements:

1. near Sheffield Street
2. near Birmingham Street
3. near Manchester Street

“Slow the speed that right turning motorists enter the side road from Te Roto Drive. Reduce the width that pedestrians have to cross by constructing pedestrian splitter islands supplemented by kerb crossing ramps and upgrade lighting”

I fully support these proposals.

page 66: Concept Plan 7 – Paraparaumu Beach School - Proposed A: Intersection improvements

I fully support these proposals

page 66: Proposed B “Construct three speed humps with lighting on Beachwater Grove to reduce motorists travel speed”

I am opposed to this proposal for the reasons given in General Remarks above.

Concept Plan 10 – Kāpiti Primary School

page 72: Concept Plan 10 – Kāpiti Primary School - “Upgrade pedestrian crossings on Iver Trask Place”

I fully support this proposal.

Recreational Zones

page 91: Concept Plan 1 – Raumati Village - Proposed speed humps to reduce motorists travel speed:

A opposite 7 Alexander Road and B opposite 19 Matatua Road

I often use Matatua Road, and therefore strongly oppose implementation of part B for the reasons given in General Remarks above.

Recreational Zone Concept Plan 3 – Tutaneikai Street

page 93: Concept Plan 3 – Tutaneikai Street - Proposed A “Construct two speed humps to reduce motorists travel speed...”

I am opposed to this for the reasons given in General Remarks above.

Speed Limits

page 106: Concept Plan 1 - Marine Parade (Howell Road to Kāpiti Road - Proposed A “Extend the existing 30km/h speed limit”

I fully support this proposal.

page 114: Concept Plan 3 - Main Road (Hemi Street to Hadfield Link Road) - Proposed A "Reduce the speed limit from 100km/h to 80km/h"

I fully support this proposal.

Speed Limit Concept Plan 13 – Paraparaumu/Raumati UTA Urban Traffic Area extension

pages 128/129: Main Road (Hemi Street to Hadfield Link Road) - Proposed A "Include this area in the existing Urban Traffic Area (UTA)..."

I fully support this proposal. Maybe even extend the 50k zone on Otaihangā Road as far as the rail crossing, so as to include the transfer station, green waste, and car museum access roads.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text The driveway parallel to Kapiti Road from the BP station to Te Roto Drive should be one way with the entrance at Te Roto Drive and exiting via Te Roto Drive and trying to turn right all Te Roto Drive put their life in their hands judging the traffic signal phase.

Could the Council change the speed limit from the traffic lights at Amohia Street and SH1 until after Kapiti Primary School. Also, a roundabout and give way signs entrance to Epiha Street would slow traffic making the turn into Epiha Street railway carparking safer. It is currently a blind spot.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Yes.

1. Reduce speed on Marae Lane, Waikanae, from 50 to 40km/h. Many older drivers using the adjacent carparks, especially the Woolworth's Carpark and the street corner carpark, and often there are small traffic jams associated with this traffic and traffic stopped at the pedestrian crossing by the doctor/chemist.

2. Do something at the intersection at Omahi Street/Ngaio Road/Marae Lane. There are many pedestrians crossing from both sides of Omahi Street towards Marae Lane and traffic doesn't slow down. As you will know, recently a lady died after being hit by a car at this intersection. You may be able to straighten Omahi Street and Marae Lane and install a small roundabout with a pedestrian crossing.

Long Text

Simply widening this shared footpath will not necessarily mitigate the significant user conflict on this stretch of Poplar Avenue. The footpath is heavily used by students walking to and from at least two primary schools and Kāpiti College, as well as the significant pedestrian activity concentrated around Te Rā school at pick up and drop off time. We are seeing a significant increase in commuter and recreational cyclists utilising this corridor to access old state highway 1 and the cycleways heading north along the expressway. Either the pathway would need to be sufficiently wide and formally divided to mitigate these walker/biker conflict or a better solution would be to add width and a protected cycle to the road on the southern side including a safe crossing for cyclists - perhaps in the vicinity of the Leinster Avenue intersection. This would allow cyclists coming off the expressway bike trail a continuous cycle route all the way along Poplar Avenue to either the old farm Road or te Ara o Whareroa entrances. This also raises the concern about the poplar Ave and Leinster Avenue intersection. This is another wide intersection with restricted visibility and creates a complex environment especially for young pedestrians and cyclists to navigate with heavy traffic volumes and cars turning in and out of Leinster Avenue. There is an excellent opportunity to create a high-quality connecting route for an increasing volume of recreational cyclists to have a safe and uninterrupted journey from the Poplar Avenue interchange to the various trails and destinations that QE2 park and Raumati South Village have to offer.

Long Text

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text I agree that there needs to be traffic calming measures on Hillcrest Road, however one of the major concerns for me as a parent of a college student is the large busy roundabout. I strongly feel that the traffic awareness and judgement of children and teenagers isn't sufficient for the dynamics present at the Hillcrest Road and Raumati road roundabout. I don't know what the solution is to maintain traffic flow at peak times through this area, but potentially adding a pedestrian crossing with these Hillcrest Road speed bumps would mean one less dangerous crossing right next to the roundabout.

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice Yes, I agree

Q29 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text

Q30 Do you agree with proposed change B for SC5 Raumati South School?

Multi Choice No, I disagree

Q31 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text Well I agree with widening the footpath on this corner absolutely, but I feel that an extension of safe footpath servicing Raumati South school from the south is necessary. Specifically to extend the footpath all the way along the eastern side of Mātai road from the school to Poplar Ave.

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text As a resident of Leicester Avenue, we have seen a significant increase of car traffic pedestrian and cyclist activity in recent years. The design and layout of Leinster Avenue creates problems with visibility, parked cars impeding two

way traffic and risks to on road cyclists. The insufficient width, state of disrepair and sometimes complete lack of footpaths especially in the vicinity of 10 to 30 Leinster Avenue add to the risks to our vulnerable pedestrians and child cyclists. I advocate for a footpath to be created on the eastern/even-numbered side of the street, for traffic calming measures in this high risk, narrow, S-bend section of Leinster avenue and potentially a speed restriction in the area of the new playground as this is attracting significant numbers of visitors. The population of Leicester Ave has grown in recent years with the addition of dwellings to the north end on Rongomau Lane, and there are several developments and subdivisions on the cards for the near future. This is not currently a quiet safe deadend street as you might expect, we often have vehicles travelling from the northern end of our suburban excess of the posted 50 km an hour speed limit. Our families would greatly appreciate some additional safety measures to mitigate this risk.

Q103	Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.
Long Text	
Q104	Is there anything else you'd like us to consider for future Speed Management Plans?
Long Text	Two suggested improvements: (1) Menin Road is frequently used for speeding and would benefit from multiple speed humps. (2) Dale Road entering Menin is a hazardous area for pedestrians and drivers, because there are no street markings, so cars turn into the opposite lane, often at speed. Dale Road (like Hillcrest South) at our end has no pavement, so is unsafe for pedestrians. Perhaps this street area could be narrowed for turning traffic, and clear street markings.

Long Text

Speed bumps are crude devices that are unneeded outside of school start and finish times. Install temporary 20/30 kph flashing speed signs to be used at school start/finish times only. Hillcrest Road leading to the roundabout on Raumati Rd is an essential alternative for traffic wanting to avoid the highly dangerous Raumati Rd/Matai Rd intersection at all hours day and night.

Q28	Do you agree with proposed change A for SC5 Raumati South School?
Multi Choice	Yes, I agree
Q29	Please explain why you disagree with this proposed change for SC5 Raumati South School.

Q14 Do you agree proposed change A for SC2 Te Rā Waldorf School?

Multi Choice

No, I disagree

Q15 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

I support the lighting and kerb ramp elements of this proposal and I oppose the carriageway narrowing. Permanently reducing lane width and tightening intersection geometry makes the road harder to use in a district with an older-than-average driving population, and where the existing footpath is already adequate it delivers very little. If the underlying problem is visibility at the corner, address the obstruction — parking restrictions, vegetation clearance, lighting — which is far cheaper than rebuilding the kerb line. No cost has been published for this item, so its value cannot be assessed.
I note this proposal also involves removing an existing traffic island as well as widening the kerb. Removing an existing pedestrian island, in a plan intended to improve pedestrian safety, requires specific justification which is not given.

Q16 Do you agree proposed change B for SC2 Te Rā Waldorf School?

Multi Choice

No, I disagree

Q17 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

If the underlying problem is visibility at the corner, address the obstruction — parking restrictions, vegetation clearance, lighting — which is far cheaper than rebuilding the kerb line. No cost has been published for this item, so its value cannot be assessed.
This is also flagged as Pathways Network Plan Priority 12. Where a project sits in two plans, the cost apportionment should be disclosed.

Q20 Do you agree proposed change D for SC2 Te Rā Waldorf School?

Multi Choice

No, I disagree

Q21 Please explain why you disagree with this proposed change for SC2 Te Rā Waldorf School.

Long Text

I support widening the shared path, subject to two conditions: that the cost is published, and that the widening is taken from the reserve or berm rather than from the carriageway.
Poplar Avenue has generous adjacent space and there is no reason for a path widening to encroach on the road. I note this is Pathways Network Plan Priority 4, and the cost apportionment between the two plans should be disclosed.

Q22 Do you agree with this proposed change for SC3 Raumati Beach School?

Multi Choice

No, I disagree

Q23 Please explain why you disagree with this proposed change for SC3 Raumati Beach School.

Long Text

I do not support reconstructing this crossing on a raised safety platform. A crossing already exists at this location, so pedestrians already have legal priority.

The stated problem is near misses while the school patrol is operating. That is a compliance and visibility problem during a defined period, and the proportionate responses are improved lighting, approach visibility, patrol signage and enforcement. A permanent raised platform penalises all traffic at all hours to address a risk present for a few minutes twice a day on school days.

No cost is published, and this is one of only three school projects brought forward into the 2027–30 tranche. It is being prioritised without a stated cost or benefit-cost ratio.

Q24 Do you agree with proposed change A for SC4 Kāpiti College?

Multi Choice No, I disagree

Q25 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text I support the lighting and kerb ramp elements of this proposal and I oppose the carriageway narrowing. Permanently reducing lane width and tightening intersection geometry makes the road harder to use in a district with an older-than-average driving population, and where the existing footpath is already adequate it delivers very little. If the underlying problem is visibility at the corner, address the obstruction — parking restrictions, vegetation clearance, lighting — which is far cheaper than rebuilding the kerb line. No cost has been published for this item, so its value cannot be assessed.

The stated problem is that students cross between parked vehicles. That is a parking problem. Broken yellow lines over the relevant frontage remove the parked vehicles and restore visibility at a cost of a few hundred dollars, enforceable immediately, without permanently reconstructing the kerb line or removing parking capacity at a college where parking is already under pressure.

Q26 Do you agree with proposed change B for SC4 Kāpiti College?

Multi Choice No, I disagree

Q27 Please explain why you disagree with this proposed change for SC4 Kāpiti College.

Long Text I support the lighting element and I oppose the two speed humps.

I do not support speed humps at this location. No site-specific cost or benefit-cost ratio has been published for this proposal, so the spend cannot be assessed. Speed humps impose a permanent penalty on all traffic at all hours to address a risk that is intermittent. They are uncomfortable and in some cases painful for older drivers and passengers, they slow emergency and service vehicles, and they carry ongoing maintenance cost. Before committing to construction, Council should publish the measured speed data for this site — including the survey location, the survey dates, and the distribution of recorded exceedances by hour of day — together with the site cost and the lower-cost alternatives considered, such as signage, road marking, lighting and enforcement.

I note the concept plan states the location of the humps is to be confirmed. Ratepayers are being asked to approve construction at an undetermined location for an undisclosed cost. That is not a proper basis for consultation. No volume or speed data is presented for Hillcrest Road.

Q28 Do you agree with proposed change A for SC5 Raumati South School?

Multi Choice No, I disagree

Q29 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text I support the lighting and kerb ramp elements of this proposal and I oppose the carriageway narrowing. Permanently reducing lane width and tightening intersection geometry makes the road harder to use in a district with an older-than-average driving population, and where the existing footpath is already adequate it delivers very little. If the underlying problem is visibility at the corner, address the obstruction — parking restrictions, vegetation clearance, lighting — which is far cheaper than rebuilding the kerb line. No cost has been published for this item, so its value cannot be assessed.

Q30 Do you agree with proposed change B for SC5 Raumati South School?

Multi Choice No, I disagree

Q31 Please explain why you disagree with this proposed change for SC5 Raumati South School.

Long Text I support the lighting and kerb ramp elements of this proposal and I oppose the carriageway narrowing. Permanently reducing lane width and tightening intersection geometry makes the road harder to use in a district with an older-than-average driving population, and where the existing footpath is already adequate it delivers very little. If the underlying problem is visibility at the corner, address the obstruction — parking restrictions, vegetation clearance, lighting — which is far cheaper than rebuilding the kerb line. No cost has been published for this item, so its value cannot be assessed.

I note that a raised pedestrian zebra crossing has already been completed on Matai Road at this school under the current plan. Council should report the measured effect of that completed work before adding further treatment at the same site.

Q32 Do you agree with proposed change A for RZ1 Raumati Village?

Multi Choice No, I disagree

Q33 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text I do not support speed humps at this location. No site-specific cost or benefit-cost ratio has been published for this proposal, so the spend cannot be assessed. Speed humps impose a permanent penalty on all traffic at all hours to address a risk that is intermittent. They are uncomfortable and in some cases painful for older drivers and passengers, they slow emergency and service vehicles, and they carry ongoing maintenance cost. Before committing to construction, Council should publish the measured speed data for this site — including the survey location, the survey dates, and the distribution of recorded exceedances by hour of day — together with the site cost and the lower-cost alternatives considered, such as signage, road marking, lighting and enforcement. No traffic volume or speed data is presented for this site, unlike most other recreational zone proposals. Two separate hump locations are proposed within a short distance in a village retail area where traffic is already slowing because of parking turnover and pedestrian activity.

Q34 Do you agree with proposed change B for RZ1 Raumati Village?

Multi Choice No, I disagree

Q35 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text I do not support speed humps at this location. No site-specific cost or benefit-cost ratio has been published for this proposal, so the spend cannot be assessed. Speed humps impose a permanent penalty on all traffic at all hours to address a risk that is intermittent. They are uncomfortable and in some cases painful for older drivers and passengers, they slow emergency and service vehicles, and they carry ongoing maintenance cost. Before committing to construction, Council should publish the measured speed data for this site — including the survey location, the survey dates, and the distribution of recorded exceedances by hour of day — together with the site cost and the lower-cost alternatives considered, such as signage, road marking, lighting and enforcement. As with the Alexander Road location, no volume or speed data is presented. Council should publish a speed survey for Raumati Village, including survey location and hourly distribution, before committing to construction at either location.

Q36 Do you agree with this proposed change for RZ2 Takitimu Road?

Multi Choice No, I disagree

Q37 Please explain why you disagree with this proposed change for RZ2 Takitimu Road.

Long Text I do not support speed humps at this location. No site-specific cost or benefit-cost ratio has been published for this proposal, so the spend cannot be assessed. Speed humps impose a permanent penalty on all traffic at all hours to address a risk that is intermittent. They are uncomfortable and in some cases painful for older drivers and passengers, they slow emergency and service vehicles, and they carry ongoing maintenance cost. Before committing to construction, Council should publish the measured speed data for this site — including the survey location, the survey dates, and the distribution of recorded exceedances by hour of day — together with the site cost and the lower-cost alternatives considered, such as signage, road marking, lighting and enforcement. No traffic volume or speed data is presented for Takitimu Road. The stated justification is that the road is shared by pedestrians and motorists, which is true of most streets without footpaths and is not by itself evidence of unacceptable risk.

Q102 Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?

Multi Choice No, I disagree

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text I support this. A new subdivision road defaulting to 100 km/h is plainly wrong, and setting a 50 km/h default across the growth area is sensible forward planning at negligible cost. This should not, however, be treated as endorsement of any further reduction below 50 km/h within the extended area without site-specific justification.

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text Traffic survey methodology
Every recreational zone proposal that cites data does so as a single pair of figures for an entire road — a seven-day travel volume, and a count of vehicles per day exceeding 60 km/h. Nothing is disclosed about where on the road the survey was taken, over what dates, or how the recorded exceedances are distributed across the day. That omission is decisive, not technical. These treatments are justified as protecting people using reserves, parks, beaches and cemeteries — activity that occurs in daylight and, for reserves and parks, largely at weekends and after school. If the recorded speeding is concentrated in evening and overnight hours, when the road is empty and

drivers face no opposing traffic, then the speeding and the pedestrian exposure do not coincide in time, and permanent physical treatment addresses a risk that is not present when people are actually there. Council holds this information. Pneumatic tube counters record a time stamp for every vehicle as a matter of course, and the hourly distribution is a standard output, not an additional survey. It has not been published, and without it no ratepayer can assess whether any of these proposals is warranted.

I ask that the final plan publish, for every site where speed data is cited: the survey location on the road, the survey dates, and the distribution of recorded exceedances by hour of day and by day of week. Where the recorded speeding does not coincide in time and place with the activity the treatment is intended to protect, the proposal should be withdrawn.

The same point applies to survey location. A single figure quoted for a whole road tells the reader nothing about whether the speeds were recorded at the point being treated. Where a count taken on a long open straight is used to justify humps several hundred metres away in front of a reserve, the data does not support the proposal — it merely accompanies it.

I also note that several proposals carry no published speed or volume data whatsoever, including Park Avenue, Takitimu Road, both Raumati Village locations, Beachwater Grove, Tutanekai Street, Lancelot Grove, Ōtaki Cemetery and Awa Tapu Cemetery. Council is asking ratepayers to fund permanent physical works at these sites on no published evidence at all.

Cost transparency

The plan asks ratepayers to endorse 14 speed limit changes and 49 infrastructure improvements without publishing the cost of a single one of them. Table 16 gives five programme-level totals and nothing more. At the stated accuracy band of minus 30 per cent to plus 50 per cent, the \$4.745m programme could land at \$7.1m. That range is acknowledged in a footnote and then not addressed anywhere in the document.

I ask that the final plan publish, for every proposal, an individual rough-order cost and a benefit-cost ratio, or a stated reason why a BCR cannot be calculated. At present benefit-cost ratios exist for two projects out of 63. One of those two returns a BCR of 1.5 on an assumption of five pedestrians a day. That is a thin basis on which to commit public money, and it is the best-evidenced project in the document.

Three proposals — Lancelot Grove, Ōtaki Cemetery and Awa Tapu Cemetery — are marked unsubsidised, meaning they fall entirely on ratepayers with no NZTA funding assistance. These should be individually costed and justified before adoption, not bundled into a programme total. All three were also excluded from the resident pre-consultation recorded at Table 11.

I also note that Table 16 is headed “Total Cost (\$000)”. Read literally, the programme total is \$4.745 billion. It is presumably a labelling error, but it is the central financial table in a consultation document and it has not been checked.

Budget discipline

The plan states that if new projects emerge, the programme will be reprioritised to stay within the approved budget, with approval from the Group Manager Infrastructure and Assets. There is no equivalent commitment for cost escalation on the projects already listed.

I ask that the final plan commit to: reporting actual against estimated cost for each completed project; referring any project exceeding its estimate by more than 20 per cent back to Council before proceeding; and publishing post-construction speed and crash data so the benefit actually delivered can be compared against the benefit claimed.

Speed limit reductions without demonstrated risk

Several proposed reductions sit on sections with no reported injury crashes across the five-year assessment period from 1 February 2021 to 30 April 2026 — Marine Parade and Howell Road, Peka Peka Road, the Mill Road extension, Gear Road and Taylors Road.

Roads exist to move people and goods. A speed limit should be reduced where there is demonstrated, unacceptable risk to life, not as a default position and not to match the speeds drivers already choose. Matching a posted limit down to observed mean speed does not improve safety; it removes headroom and criminalises behaviour that the plan itself describes as normal for the road.

Old Hautere Road illustrates the problem. Council's own Cost Benefit Disclosure Statement projects a reduction of 0.02 expected injury crashes per year against an increase of 1,009 travel hours per year across all road users. On the plan's own figures, the travel time cost is of the same order as the monetised safety benefit. That calculation is not shown. It should be, for every proposed reduction.

Infrastructure: proportionality

The school zone programme extends treatment to a 1km buffer around every school in the district on the basis that this is the distance students will walk or cycle. The risk it addresses is concentrated in two short periods on school days — around 190 days a year. The mitigation is permanent, 24 hours a day, 365 days a year.

Council's own monitoring records a 15 km/h mean speed reduction already achieved from the variable 30 km/h limits and existing treatments. That is a substantial result from measures targeted at the actual risk window. The case for adding permanent vertical deflection and permanent carriageway narrowing on top of it has not been made.

I do not support the widespread use of speed humps and raised platforms. They impose a whole-of-day penalty, are uncomfortable and in some cases painful for older drivers and passengers, slow emergency and service vehicles, add ongoing maintenance liability, and displace speeding to adjacent streets. Kāpiti has an older-than-average driving population. Narrower carriageways and tighter intersection geometry make the network harder for them, not safer.

I do not support widening footpaths and kerbs into the carriageway where the existing footpath is already generously wide. Where more pedestrian space is genuinely needed, take it from the reserve or the existing path, not from the road.

What I do support

Lighting upgrades — low cost, no penalty to any road user, and directly effective on night-time risk. New footpaths closing genuine gaps in the walking network. Kerb ramps for accessibility. Pedestrian refuge islands on genuinely wide arterial corridors, where a central island can be installed without narrowing traffic lanes; the wait-time argument at Table 9 is sound. Formalising posted limits on the new Peka Peka to Ōtaki Expressway side roads, which is legal housekeeping at negligible cost.

Taken as a whole, however, the programme reads as an accumulation of physical devices rather than a network designed for the efficient movement of both vehicles and pedestrians. I ask Council to fund the low-cost, high-value elements first — lighting, footpath gaps, refuges on wide corridors — publish the cost of each remaining item, publish the underlying survey data, and bring the vertical deflection and carriageway narrowing proposals back for separate consideration on their individual merits.

	All bus routes within Kapiti road network- Recommend a smoother Watts profile on any new speed humps proposed to be installed or modified on existing bus routes- we rather prefer speed cushions instead of speed humps because they are easier to traverse over and more comfortable ride for passengers on board buses. GWRC have a map of all bus routes on the road network, - KCDC can request this to view to ensure any speed humps on bus routes are assessed and considered.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

The speed cars travel on Hillcrest road is scary. we often hear cars accelerating hard from the roundabout at the Raumati road end. By the time we hear them pass our driveway, which is only a 200m (at a guess) from the roundabout, they look like they are going over 70kph.
The planting on the round about at hillcrest road and raumati road is also of concern. when you are trying to cross the road to the west of the roundabout, you cannot see the other side of the roundabout to see if cars are approaching. Cars heading straight through the roundabout towards the village come through the roundabout so fast, and even as a fairly tall adult, i cannot see over the roundabout to see if a car is coming.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

Great initiative as I have seen several near misses due to cars speeding through the Village including one involving my wife. The speed signs don't make any difference to many motorists.
Would suggest that two other speed bumps be considered. One for Rosetta and Garden Roads where the existing speed warning sign sits. Would ensure cars slow down before hitting the crossing leading to the Gardens. Another close to the corner of Victor Rd and Margaret Rd as Margaret can get very busy with people crossing.
Also assume that the speed bumps will cross both lanes as those exiting the restricted speed zone sometimes accelerate well before they hit the 50 kmph zone.

Q35 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text

Matatua Roas speed hump is not necessary. It's the main road with little to no accidents. It is not a dangerous road or intersection. Slowing cars down unnecessarily will frustrate road users, increase carbon emissions and is unnecessary.

Q36 Do you agree with this proposed change for RZ2 Takitimu Road?

Multi Choice

Q37 Please explain why you disagree with this proposed change for RZ2 Takitimu Road.

Long Text

Q102 Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?

Multi Choice

Yes, I agree

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

You have to strike the right balance between traffic flow, climate change (slowing down traffic and then speeding back up causes huge emissions), risk, whether accidents actually occur in the area, and frankly what the public want. Slowing down traffic when there is no evidence of accidents is unnecessary. Think of how much emissions is created by slowing down and speeding up traffic.

Q35 Please explain why you disagree with this proposed change for RZ1 Raumati Village.

Long Text This measure, and its costs, lack a credible basis for justification, because: (1) no evidence has been provided to support the assumption that vehicle speeds here are problematic from a safety point of view; (2) no target speed appears to have been set, and no evidence has been provided that the proposed change will reduce speeds to the intended maximum.

Q36 Do you agree with this proposed change for RZ2 Takitimu Road?

Multi Choice Yes, I agree

Q37 Please explain why you disagree with this proposed change for RZ2 Takitimu Road.

Long Text

Q102 Do you agree with proposed change for SL13 Paraparaumu/Raumati UTA?

Multi Choice No, I disagree

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text Land transport rules may not require you to disclose the cost/benefits of this change, I won't consider supporting it unless you do disclose them.

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text This comes across as a poorly considered piece of work. There is predominantly no real-world evidence base for the proposed changes, there is no setting of measurable objectives for the proposed changes (beyond 'reduce speed', which is too arbitrary to be a useful consideration when we're being asked to support the changes and their cost to us), and no explanation of how proposed measures will meet a measurable objective. I really hope that this is not indicative of how council plans its benefit realisations and expenditures generally.

Multi Choice

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

As a cyclist I like the idea of slowing the traffic down in the area. I also like the plan to make the exit from Kapiti College student carpark more open to prevent incidents. It is a busy area around school start and finish. I currently dodge this area because of the traffic problems at those times.

Q105 Are you providing feedback as an individual or on behalf of an organisation?

Multi Choice

As an individual

Q106 Name of organisation

Yes, I agree

Q103 Please explain why you disagree with this proposed change for SL13 Paraparaumu/Raumati UTA.

Long Text

Q104 Is there anything else you'd like us to consider for future Speed Management Plans?

Long Text

I would like a NO PARKING area to be considered both sides of the road within the speed bump area for Hillcrest Road Raumati, outside the Kapiti College entrance. Vision is often impaired for people leaving the college and residence leaving their drives due to the high volume of cars parked on the street during school hours. It isn't just a speed related issue. A small child was badly injured around a year ago due to this problem.
